1. What type of attack involves the unauthorized transmission of data from a system?

1 / 1 point

- ☒ Data exfiltration
- ☐ Data leak
- ☐ Packet crafting
- ☐ Packet classification

 **Correct**

2. What are some defensive measures that can be used to protect against data exfiltration? Select two answers.

1 / 1 point

- ☒ Deploy multi-factor authentication

 **Correct**

- ☐ Utilize lateral movement
- ☐ Reduce file sizes

- ☒ Monitor network activity

 **Correct**

3. What information do packet headers contain? Select three answers.

1 / 1 point

- ☐ Payload data
- ☒ IP addresses

 **Correct**

- ☒ Ports

 **Correct**

- ☒ Protocols

 **Correct**

4. Fill in the blank: Network protocol analyzers can save network communications into files known as a ____.

1 / 1 point

- ☐ network packet

- ☐ protocol
- ☐ payload
- ☒ packet capture

 **Correct**

5. Fill in the blank: tcpdump is a network protocol analyzer that uses a(n) ____ interface.

1 / 1 point

- ☐ internet
- ☒ command-line
- ☐ Linux
- ☐ graphical user

 **Correct**

6. Which layer of the TCP/IP model is responsible for accepting and delivering packets in a network?

1 / 1 point

- ☐ Network Access
- ☒ Internet

- ☐ Application
- ☐ Transport

✔ Correct

7. Which IPv4 header fields involve fragmentation? Select three answers.

1 / 1 point

- ☒ Fragment Offset

✔ Correct

- ☒ Flags

✔ Correct

- ☐ Type of Service

- ☒ Identification

✔ Correct

8. What is the process of breaking down packets known as?

1 / 1 point

- ☐ Flags
- ☐ Fragment Offset
- ☒ Fragmentation
- ☐ Checksum

✔ Correct

9. Which tcpdump command outputs detailed packet information?

1 / 1 point

- ☐ `sudo tcpdump -i any -c 100`
- ☒ `sudo tcpdump -i any -v`
- ☐ `sudo tcpdump -i any -n`
- ☐ `sudo tcpdump -v any -i`

✔ Correct

10. Examine the following tcpdump output:

1 / 1 point

`sudo tcpdump -v any -e`

✔ Correct

10. Examine the following tcpdump output:

1 / 1 point

```
22:00:19.538395 IP (tos 0x10, ttl 64, id 33842, offset 0, flags [P], proto TCP (6), length 196) 198.168.105.1.41012 > 198.111.123.1.61012: Flags [P.], cksum 0x50af (correct), seq 169, ack 187, win 501, length 42
```

Which protocols are being used? Select two answers.

- ☒ IP

✔ Correct

- ☒ TCP

✔ Correct

- ☐ UDP

- ☐ TOS
