

Your grade: 100%Your latest: **100%** • Your highest: **100%** • To pass you need at least 80%. We keep your highest score.[Next item →](#)

1. What network protocol helps data get to the right place by determining the MAC address of the next router or device on its path?

1 / 1 point

- ☐ Transmission Control Protocol (TCP)
- ☐ Hypertext Transfer Protocol Secure (HTTPS)
- ☐ Secure Sockets Layer/Transport Layer Security (SSL/TLS)
- ☒ Address Resolution Protocol (ARP)

 **Correct**

2. Fill in the blank: The _____ maintains Wi-Fi standards.

1 / 1 point

- ☒ IEEE 802.11
- ☐ Transmission control protocol (TCP)
- ☐ Domain name system (DNS)
- ☐ WiFi protected access (WPA)

 **Correct**

3. A firewall administrator installs a firewall function to either block or allow certain port numbers to limit unwanted communication. What function does this scenario describe?

1 / 1 point

- ☐ Location masking
- ☒ Port filtering
- ☐ Organizing data packets
- ☐ Using cloud-based firewalls

 **Correct**

4. Which firewall offers the most security features?

1 / 1 point

- ☐ Documented firewall
- ☒ Next generation firewall (NGFW)
- ☐ Stateless firewall
- ☐ Stateful firewall

 **Correct**

5. What network security service masks a device's virtual location to keep data private while using a public network?

1 / 1 point

- ☐ Network segmenter
- ☒ Virtual private network (VPN)
- ☐ Cloud service provider (CSP)
- ☐ Domain name system (DNS)

 **Correct**

6. Fill in the blank: VPN services perform _____ to protect sensitive data by wrapping it in other data packets.

1 / 1 point

- ☒ encapsulation
- ☐ packet sniffing
- ☐ transmission control
- ☐ network segmentation

 **Correct**Please review [the video about virtual networks](#) [↗](#).

7. What network is part of the uncontrolled zone?

1 / 1 point

- ☐ Subnets
- ☐ Internal networks
- ☐ Web servers
- ☒ Internet

✔ Correct

8. What is the function of the demilitarized zone (DMZ)?

1 / 1 point

- ☒ Isolate servers exposed to the internet from the rest of a network
- ☐ Protect highly confidential information accessible only to employees with certain privileges
- ☐ Encrypt data as it travels across the internet
- ☐ Organize data by forwarding it to other servers

✔ Correct

9. Fill in the blank: A ____ fulfills the requests of its clients by forwarding them to other servers

1 / 1 point

9. Fill in the blank: A ____ fulfills the requests of its clients by forwarding them to other servers

1 / 1 point

- ☐ router
- ☒ proxy server
- ☐ virtual private network (VPN)
- ☐ firewall

✔ Correct

10. Which of the following statements accurately describe forward and reverse proxy servers? Select three answers.

1 / 1 point

- ☒ Reverse proxy servers accept traffic from external parties, approve it, then forward it to internal servers.

✔ Correct

- ☒ Forward proxy servers receive outgoing traffic from an employee, approve it, then forward it to its destination on the internet.

✔ Correct

- ☐ Reverse proxy servers work by hiding a user's IP address and approving all outgoing requests.

- ☒ Forward proxy servers regulate and restrict a person's access to the internet.

- ☐ firewall

✔ Correct

10. Which of the following statements accurately describe forward and reverse proxy servers? Select three answers.

1 / 1 point

- ☒ Reverse proxy servers accept traffic from external parties, approve it, then forward it to internal servers.

✔ Correct

- ☒ Forward proxy servers receive outgoing traffic from an employee, approve it, then forward it to its destination on the internet.

✔ Correct

- ☐ Reverse proxy servers work by hiding a user's IP address and approving all outgoing requests.

- ☒ Forward proxy servers regulate and restrict a person's access to the internet.

✔ Correct
