

Your grade: 100%Your latest: **100%** • Your highest: **100%** • To pass you need at least 80%. We keep your highest score.[Next item →](#)

1. Fill in the blank: A ____ is a network that spans a large geographic area, like a city, state, or country.

1 / 1 point

- ☒ WAN
- ☐ Modem
- ☐ LAN
- ☐ Cloud

Correct

2. Which network device connects multiple networks together?

1 / 1 point

- ☐ A switch
- ☐ A hub
- ☐ A modem
- ☒ A router

Correct

Correct

Please review [the video about network tools](#).

3. Which of the following statements accurately describe switches? Select all that apply.

1 / 1 point

- ☒ Some benefits to switches are effective control of traffic flow and improved network performance.

Correct

- ☒ A switch is a device that makes connections between specific devices on a network by sending and receiving data between them.

Correct

- ☒ When a switch receives a data packet, it reads the MAC address of the destination device and maps it to a port.

Correct

- ☐ Switches are less secure than hubs.

4. Which of the following are benefits for businesses that are considering using a cloud service provider (CSP)?
Select all that apply.

1 / 1 point

4. Which of the following are benefits for businesses that are considering using a cloud service provider (CSP)?
Select all that apply.

1 / 1 point

- ☒ CSPs provide business analytics to monitor web traffic and sales.

Correct

- ☐ CSP data and devices are more secure because they are stored locally.

- ☒ CSP remote servers allow online services to be accessed from any location.

Correct

- ☒ CSPs offer on-demand storage.

Correct

5. What information is included in the body of a data packet?

1 / 1 point

- ☐ The signal that tells the receiving device that the packet is finished transferring
- ☒ The message to be transmitted to the receiving device
- ☐ The MAC address
- ☐ The protocol number

6. Fill in the blank: _____ refers to the practice of using remote servers, applications, and network services that are hosted on the internet, instead of in a physical location owned by a company.

1 / 1 point

- ☒ Cloud computing
- ☐ Software defined networks (SDNs)
- ☐ Hybrid cloud environment
- ☐ Local area network (LAN)

 Correct

7. What port number is used for large file transfers?

1 / 1 point

- ☐ 37
- ☒ 20
- ☐ 25
- ☐ 443

 Correct

8. A security analyst uses the TCP/IP model to visualize how data is organized and transmitted across their

1 / 1 point

8. A security analyst uses the TCP/IP model to visualize how data is organized and transmitted across their company's network. The analyst inspects the transmission of data packets, such as the switches that direct data to its destination. Which layer are they investigating?

1 / 1 point

- ☒ Layer 1, network access
- ☐ Layer 2, internet
- ☐ Layer 3, transport
- ☐ Layer 4, application

 Correct

9. Fill in the blank: 127.0.0.1 is an example of an ____ address.

1 / 1 point

- ☒ IPv4
- ☐ MAC
- ☐ IPv6
- ☐ Ethernet

 Correct

9. Fill in the blank: 127.0.0.1 is an example of an ____ address.

1 / 1 point

- ☒ IPv4
- ☐ MAC
- ☐ IPv6
- ☐ Ethernet

 Correct

10. Fill in the blank: fe80::ab12:cd34:ef56:0023:2345 is an example of an accurate ____ address.

1 / 1 point

- ☐ Ethernet
- ☐ MAC
- ☒ IPv6
- ☐ IPv4

 Correct
