1. Which of the following refers to a record of events that occur within an organization's systems?

1 / 1 point

- ☐ Log forwarder
- ☐ Occurrences
- ☐ Log sources
- ☒ Logs

Correct

2. Examine the following log:

1 / 1 point

```
LoginEvent[2021/10/13 10:32:08.958711] auth_session_authenticator.cc:304  
Regular user login 1
```

Which type of log is this?

- ☐ Application
- ☐ Network

☒ Authentication☐ Location

Correct

3. Examine the following log:

1 / 1 point

```
{  
  "name": "System test",  
  "host": "167.155.183.139",  
  "id": 11111,  
  "Message": [error] test,  
}
```

Which log format is this log entry in?

- ☐ XML
- ☐ CSV
- ☒ JSON
- ☐ Syslog

Correct

4. Consider the following scenario:

1 / 1 point

A security analyst at a midsized company is tasked with installing and configuring a host-based intrusion detection system (HIDS) on a laptop. The security analyst installs the HIDS and wants to test whether it is working properly by simulating malicious activity. The security analyst runs unauthorized programs on the laptop, which the HIDS successfully detects and alerts on.

What is the laptop an example of?

- ☐ An agent
- ☒ An endpoint
- ☐ A signature
- ☐ A log forwarder

Correct

5. What information is included in a signature's header? Select all that apply.

0.5 / 1 point

☒ IP address

Correct

☐ Protocol

☒ Port number Correct☒ Action

 **This should not be selected**
Please review [the video on signatures](#) .

6. Which rule option is used to match based on the direction of network traffic?

1 / 1 point

- ☐ sid
- ☐ content
- ☒ flow
- ☐ message

 Correct

7. What is the difference between network telemetry and network alert logs?

1 / 1 point

- ☒ Network telemetry contains information about network traffic flows; network alert logs are the output of a signature.
- ☐ Network telemetry is the output of a signature; network alert logs contain details about malicious activity.
- ☐ Both provide information that is relevant for security analysts, but network alert logs contain network connection details.
- ☐ Network telemetry is output in EVE JSON format; network alert logs are output in HTML.

 Correct

8. Fill in the blank: The asterisk symbol is also known as a(n) ____.

1 / 1 point

- ☐ label
- ☒ wildcard
- ☐ option
- ☐ Boolean operator

 Correct

9. What is the method to search for normalized data in Chronicle?

1 / 1 point

- ☐ Raw log search
- ☐ Unified
- ☐ YARA-L
- ☒ UDM search

 Correct

10. Fill in the blank: SIEM tools ____ raw data so that it is formatted consistently.

1 / 1 point

- ☒ normalize
- ☐ collect
- ☐ process
- ☐ ingest

 Correct
