

 Consent to Participate in Research

You are invited to take part in a **research study** conducted by **Coursera and Google DeepMind**.

Participation is voluntary. You can choose not to take part and it **will not affect your grade**.

1. I understand that Coursera and Google LLC ("Google") are conducting a joint research project that will study the efficacy of an AI-powered tool, Coursera Coach Dialogue ("Study"). As part of the Study, Coursera Coach Dialogue will be incorporated into Grow with Google courses as well as other selected Coursera courses for a limited period of time ("Study Courses"). The purpose of the Study is to determine whether interaction with Coursera Coach leads to statistically significant improvements in learner skill and knowledge acquisition, as measured by assessment scores and course completion rates.

2. I consent to participate in the Study. I understand that Coursera will collect, evaluate, and share with Google information relating to, or arising out of, my enrollment in the Study Courses during the Study, including but not limited to the following information (collectively, "My Information"):

- Insights from my user data related to the use of Coursera Coach in the Study Courses, including the number and duration of my interactions with Coursera Coach and de-

identified transcripts of interactions between myself and Coursera Coach.

- Aggregated assessment scores from Study Courses, which will include my scores.

- Aggregated data measuring learners' progress in, and completion of, Study Courses, which will include my progress and completion date.

- Aggregated engagement or learner satisfaction scores, as collected by Coursera, which will include my engagement or learner satisfaction scores.

3. I understand and acknowledge that My Information will be shared with Google on a de-identified basis (i.e., without association to my name or contact information). Please do not share any personal information, including your name, in your interactions with Coursera Coach. Any personal information that you share in your interactions with Coursera Coach, may be included in transcripts provided to Google.

4. I grant to Coursera and Google, on a nonexclusive basis, the right to collect, evaluate, summarize, reproduce, distribute, display, and publish My Information, in whole or in part, to effectuate the purpose of the Study.

5. I understand that I may receive a questionnaire at the end of the Study asking me questions about Coursera Coach. I acknowledge that a random draw will be conducted to decide who receives a questionnaire. If I receive a questionnaire, I will complete the questionnaire accurately to the best of my abilities. If I complete the questionnaire, I understand that I will receive a US\$10 Amazon voucher, or an equivalent amount adjusted for cost of living and currency conversion based on my geographic location.

6. I represent that I am at least 18 years of age, and that I am giving my consent to participate in this Study freely and voluntarily of my own free will. I understand that I will not benefit from participation in this Study.

1. **Do you agree to participate in this study?**

1 point

Important Note: There is **no correct or incorrect answer** and **will not impact your final grade**. Your choice will simply tell us whether or not you agree to participate.

☒ Yes, I agree
